

Partner Program Application Form

Thank you for partnering with Amani Children's Home to make a difference in the lives of orphans and street children in Tanzania. It is only because of people like you that Amani exists today. By establishing bonds between your organization and Amani, together we are helping to ensure that Amani kids continue to receive healthy food, clean clothes, an education, health care and love.

The Amani Partner Program is for groups of people who are enthusiastic about Amani's mission, want to offer their time and talents to the Amani kids and are committed to fundraising for the children and creating awareness within their communities about our work. This is an exciting opportunity for students at your school or members of your faith based organization to gain a deeper understanding of our global community. We ask partners to raise a minimum of \$500 annually to support Amani's work.

Name of organization/school:

Brief overview of your organizational / school:

Year founded:

Contact person:

Mailing address:

Country:

Telephone:

Email:

Website (if applicable):

How many students/members in your organization:

Community Involvement:

Does your organization have a visiting program overseas? If so, how many days are normally spent at each particular project? How many students /members do you send at one time?

How did you hear about Amani?

Why do you want your organization/school to Partner with Amani? Please be thorough in your response.

Please share *four* ideas your students or members have to raise funds for the Amani children.

As a Partner Organization, your students or members may have the opportunity to exchange letters or art work with Amani children. Because of our reunification program and the language barrier, it will not be a pen pal program per se, but the Amani children will have the opportunity to interact with others through this form of communication. However, we encourage you to come up with other additional activities or plans which will make this cooperation more fruitful for both the children here and your students or members. If you have further ideas, please share them with us:
